19 September 2001

Milbank Manufacturing Company Incorporated
1400 East Havens Street
Kokomo, Indiana 46903-0754

ATTN: Stephanie Howenberger

As you requested during our telephone conversation on 06 September 2001, I am writing to confirm the requirements that we discussed concerning monitoring for Zinc in your process effluent. During our conversation I requested that Milbank Manufacturing Company, Incorporated perform 8-hour flow proportioned composite sampling of pretreated process effluent at least one time per week during the hours that discharge of pretreated process wastewater occurs. I also requested that such monitoring begin the week of 10 September 2001 and continue for a period of four weeks so that at least four samples are obtained.

As we discussed, please send a letter responding to the elevated Zinc (See LOV dated 27 August 2001) observed during Annual Compliance Sampling in June of this year. As we agreed, the letter must include the results obtained for the four-week period and corresponding laboratory reports. I would like to thank you in advance for your cooperation in this matter. If you have any questions concerning this letter, or desire additional information; you may contact me at 765-457-5509.

Respectfully,

A handwritten signature in black ink, reading "Rodger L. Fain Jr.", is written over a horizontal line.

Rodger L. Fain Jr., CSHM
Pretreatment Coordinator

Dear , Mr. Rodger Fain

In correspondence to our telephone conversation on 06 September, 2001 concerning Milbank Manufacturing Letter of Violation dated 27 August, 2001, we have completed our four week Zinc testing per your request.

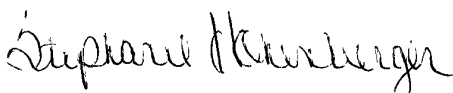

Attached you will find Analytical Test Results from our laboratory Test America Incorporated, the test are dated 13 September, 2001 through 11 October, 2001. The test result are as follows:

⇒ The Zinc Result for 13 September, 2001 - < 0.20
⇒ The Zinc Result for 20 September, 2001 - < 0.20
⇒ The Zinc Result for 27 September, 2001 - < 0.050
⇒ The Zinc Result for 09 October, 2001 - < 0.020
⇒ The Zinc Result for 11 October, 2001 - < 0.020

I also included the Test Results for 11 October, 2001 since there were two test completed for that week.

This is all the information you have requested, if you have any questions concerning this letter, or need any additional information; please contact me at (765)452-5694.

Respectfully,

Stephanie Hohenberger
Wastewater Operator
Milbank Manufacturing Company

Enclosed are the Analytical Results for the following samples
submitted to TestAmerica, Inc. Indianapolis Division for analysis:

Project Description: WASTEWATER ANALYSIS

Sample Number	Sample Description	Date Taken	Time Taken	Date Received
302665	MONTHLY SAMPLE	09/13/2001	15:30	09/13/2001

TestAmerica, Inc. certifies that the analytical results contained
herein apply only to the specific samples analyzed.

TestAmerica Incorporated-Indianapolis Division is in compliance with
the National Environmental Laboratory Accreditation Program (NELAP)
Standards.

Reproduction of this analytical report is permitted only in its
entirety.

PROJECT NARRATIVE

JOB NUMBER: 01.04815

SAMPLE: 302665

ANALYSIS:CBOD

The BOD value has been reported as a greater than value. The dilutions selected at the time of preparation were based upon historical sample dilutions. These dilutions were inappropriate for this particular sample due to higher than expected biological activity.

Due to the nature of the test, re-analysis could not be performed.

KEY TO ABBREVIATIONS

<	Less than; when appearing in the result column, indicates analyte not detected at or above the Reporting Limit.
%	Percent; To convert ppm to %, divide result by 10,000. To convert % to ppm, multiply the result by 10,000.
*	Indicates the Reporting Limit is elevated due to insufficient sample volume.
mg/L	Part per million; Concentration in units of milligrams of analyte per Liter of aqueous sample.
ug/L	Part per billion; Concentration in units of micrograms of analyte per Liter of aqueous sample.
mg/kg	Part per million; Concentration in units of milligrams of analyte per kilogram of non-aqueous sample.
ug/kg	Part per billion; Concentration in units of micrograms of analyte per kilogram of non-aqueous sample.
a	Indicates the sample concentration was quantitated using a diesel fuel standard.
b	Indicates the analyte of interest was also found in the method blank.
c	Sample resembles unknown Hydrocarbon.
dw	When indicated, the result is reported on a dry weight basis. The contribution of the moisture content in the sample has been subtracted when calculating the concentration.
d1	Indicates the analyte has elevated Reporting Limit due to high concentration.
d2	Indicates the analyte has elevated Reporting Limit due to matrix.
e	Indicates the reported concentration is estimated.
g	Indicates the sample concentration was quantitated using a gasoline standard.
h	Indicates the sample was analyzed past recommended holding time.
i	Insufficient spike concentration due to high analyte concentration in the sample.
j	Indicates the reported concentration is below the Reporting Limit.
k	Indicates the sample concentration was quantitated using a kerosene standard.
l	Indicates an MS/MSD was not analyzed due to insufficient sample. An LCS / LCS Duplicate provided for precision
m	Indicates the sample concentration was quantitated using a mineral spirits standard.
o	Indicates the sample concentration was quantitated using a motor oil standard.
p	Indicates the sample was post spiked due to sample matrix.
q	Indicates MS/MSD exceeded control limits. The associated sample may exhibit similar matrix bias. All other quality control indicators are in control
r	Indicates the sample was received past recommended holding time.
u	Indicates the sample was received improperly preserved and/or improperly contained.
uj	Indicates the result is below the Reporting Limit and is considered estimated

SENDER:

- Complete items 1 and/or 2 for additional services.
- Complete items 3, and 4a & b.
- Print your name and address on the reverse of this form so that we can return this card to you.
- Attach this form to the front of the mailpiece, or on the back if space does not permit.
- Write "Return Receipt Requested" on the mailpiece below the article number.
- The Return Receipt Fee will provide you the signature of the person delivered to and the date of delivery.

I also wish to receive the following services (for an extra fee):

1. ☐ Addressee's Address
2. ☐ Restricted Delivery

Consult postmaster for fee.

3. Article Addressed to:

Municipal Sanitation
Rodge Farm
Waste Water Treatment
1501 West Markland Ave
Kokomo, IN 46901

4a. Article Number
